

## **D.A.V. PUBLIC SCHOOL**

No. 19, Sitaram Nagar, Velachery, Chennai – 42

### **REPORT ON THE CLASS ASSEMBLY OF VI – A DURING THE ACADEMIC YEAR 2024 -25**

**Class Teacher: Ms. Parvana S**

**Date: 02.09.2024 (Monday)**

**Timing: 8.30 a.m. to 9.00 a.m.**

**Class Strength: 40**

#### **Topic: “How To Identify Logical – Mathematical Intelligence Among Students”**

The Class Assembly began with Celestial Invocation which includes Gayathri Mantra followed by DAV Gaan. The Class Assembly was structured into several segments. The comperes were Harshith and Shaik Harmaen Reeha, who introduced the topic to the audience. Aaradhya Dhupal welcomed everyone to the assembly.

The first programme of the Assembly was a skit on the topic ‘Importance of Mathematics in Day to Day Life’. The students conveyed the message that the only way to learn mathematics is to do mathematics.

The second programme was ‘Number Series’, a helpful activity to improve the logical-mathematical reasoning. The participants demonstrated two different number series and made the audience guess the missing number in it.

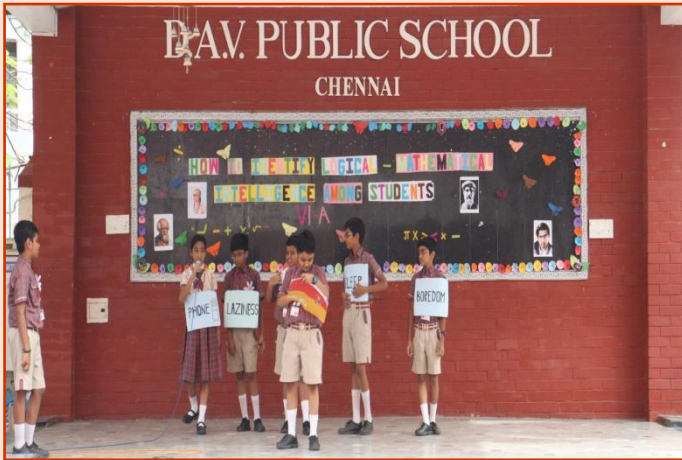

Next the students had a discussion about the renowned mathematician Aryabhata. They presented charts and placards to make their points clear. They discussed his major works and contributions to the world of Mathematics.

The fourth programme was the major attraction of the entire assembly. It was a fusion dance performed by students of the class. They began the performance with a classical dance. Students showed right angle, acute angle, obtuse angle, parallel line, parabola and intersecting lines through their dance poses. It was an attempt to prove that mathematics could be learnt through classical dance forms. The western dancers too rocked the stage with their beautiful dance movements.

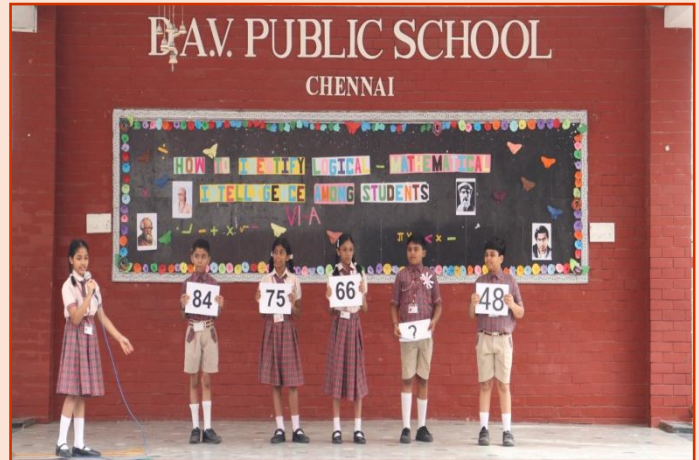

Next we had ‘Epilogue of Gratitude’ which was delivered by Saranya Sri Thimmapuram.

The assembly was interesting as well as informative. The hard work and dedication of the students under the guidance of their class teacher made the assembly a wonderful experience to one and all. The Principal, Ms. Sujatha. M, praised the students for their efforts and encouraged them to do better performances in future.

Overall, the assembly was an enlightening experience that not only entertained the students but also educated them about the importance of Logical and Mathematical Reasoning.

Math is Inevitable – Students Performing a Skit on Mathematics

Number Sequence – Audience Guessing the Missing Number in the Series

Aryabhata the Genius – Discussing the Contributions of Aryabhata

Enchanting Elegance – Presenting angles and Lines through Dance Poses

Graceful Grooves – Energetic Western Dance Performance

Words of Appreciation from our Beloved Principal Ma'am
