

DAV PUBLIC SCHOOL, SECTOR 14 & 10A, GURUGRAM

To mark the celebration of Earth Day on 22 April, the students of Grades I and II zealously participated in myriad activities to commemorate the blessings of our benevolent Mother Earth. Students expressed their views by speaking slogans, reciting poems, swaying on the songs based on the theme of conserving the planet etc. An array of creative activities was organized with a view to sensitize the children about the conservation of natural resources and to motivate them to do their bit towards making their planet more beautiful. Our Environmental Conservationists participated in these activities with great zeal and enthusiasm and contributed their best to create maximum awareness and impact.
